Premier Herdsire Prospect. J014 combines phenotype, performance, maternal, and carcass characteristics into one exciting package; is backed by many generations of elite maternal N Bar Emulation genetics. He has blown away his contemporaries on test charting over 1300 lbs at a year. **We will be using J014 back in the program. Terms announced on sale day.**

J011 is an ET full brother to Lot 7, J014. A really complete, attractive, heavy-muscled Gary son out of the 7FE4 donor cow, tracing back to the matriarch V149 Kinochtry Beauty cow. 7FE4 has done a stellar job throughout her career.
